

# WE TAKE CARE

Your trustworthy partner in the logistics and freight forwarding industry

## **Sea freight:**

Worldwide FCL shipment of your goods in the import and export trade

LCL transport operations, consolidation and buyers' consolidation  
provide cost-optimised solutions

Seaworthy packaging and stowage

Complete handling of all customs formalities for your goods

## **Air freight:**

Above the clouds, we reach every destination for you

Five continents, 250 countries and more than 10,000 destinations

Ideal connection through combined air freight operations, consolidation, express and hand-carry

## **Land transportation:**

With BRELOG, reach your destination by road, rail or inland waterways

Optimised transport solutions on all overland routes

Freight transport, partial and complete loads within Germany and Europe,  
as well as KEP services

Project, system, heavy cargo and special transport

## **Customs:**

We navigate through the rules jungle on your behalf

Support in the ATLAS export and import sectors, import fiscal representation, import and export, bonded warehouses and open warehouses

BRELOG possesses all the necessary approvals

BRELOG is an Approved Economic Operator (AEO)

## **Warehouse logistics:**

Order picking and packaging of your goods

The right storage locations and a smart warehouse management system

From cross-docking to push+pull, BRELOG is your trustworthy partner in the warehouse logistics field

## **Flexitank:**

We transform a 20' container into a fluid container and transport up to 24,000 litres of your cargo

Simple filling and emptying

The alternative to ISO tanks, exchange bodies, tanker trucks, barrels or other packaging for transporting liquids

## **Forest products:**

With BRELOG, reach the destinations for your timber products from a variety of sources in the import and export trade on time

In addition to transport, we also organise container fumigation on your behalf and apply for the phytosanitary certificate

Production of all necessary documents

## **Retail logistics:**

Integrated planning, execution, design and inspection of all goods and information flows

Europe-wide distribution systems ensure maximum visibility

Optimising of your supplier flows and replenishment times for your point-of-sale products

## **Automotive:**

Solutions for your global production deliveries and spare parts supply in the after-market sector

Just-in-time (JIT) and Just-in-sequence (JIS)

Management of global goods flows for tier suppliers

## **Cruise logistics:**

Logistic procurement when building and equipping cruise ships

Smooth process for timely delivery

Time-sensitive despatches by shipping companies, shipyards and vessel dealers are always punctual and in the right harbour

## **Project logistics:**

Whether excessive width, extreme weights, charter, RoRo or relocation of complete manufacturing systems – we will support you with our know-how

Customised solution and experienced advice

Exact planning and precise execution

Trustworthy cooperation with public institutions and authorities

## **Food / Bio / Reefer:**

Appropriate ventilation and temperature control for your goods

Supported monitoring of your product deliveries

Specialist knowledge in the bio-certificates field

## **Supply chain management:**

Trustworthy and reliable partner

From concept development to a complex production and supply process

Fully electronic management systems all the way to the PoS (Point of Sale)
