

WE TAKE CARE

Your trustworthy partner in the logistics and freight forwarding industry

BRELOG management:

Frank Scherf
(finance / admin)

Thorsten Dornia
(sales / operations)

Daniela Dornia
(finance / HR)

Seafreight:

- ☞ **Wide range of possibilities:** Handling of conventional shipments as well as RoRo transports.
- ☞ **High & Heavy:** Handling of project cargo
- ☞ **Networked worldwide:** Weekly groupage shipments (LCL/LCL) from Asia via Rotterdam to our distribution centre in Nettetal. **Direct connection** to the German and European land transport network as well as parcel services.
- ☞ Use of **reefer containers** enables BRELOG temperature-controlled transports
- ☞ **Tracking** of your sea freight through project 44 (Ocean Insights).
- ☞ **Flexitanks** for the transport of liquids in bulk products

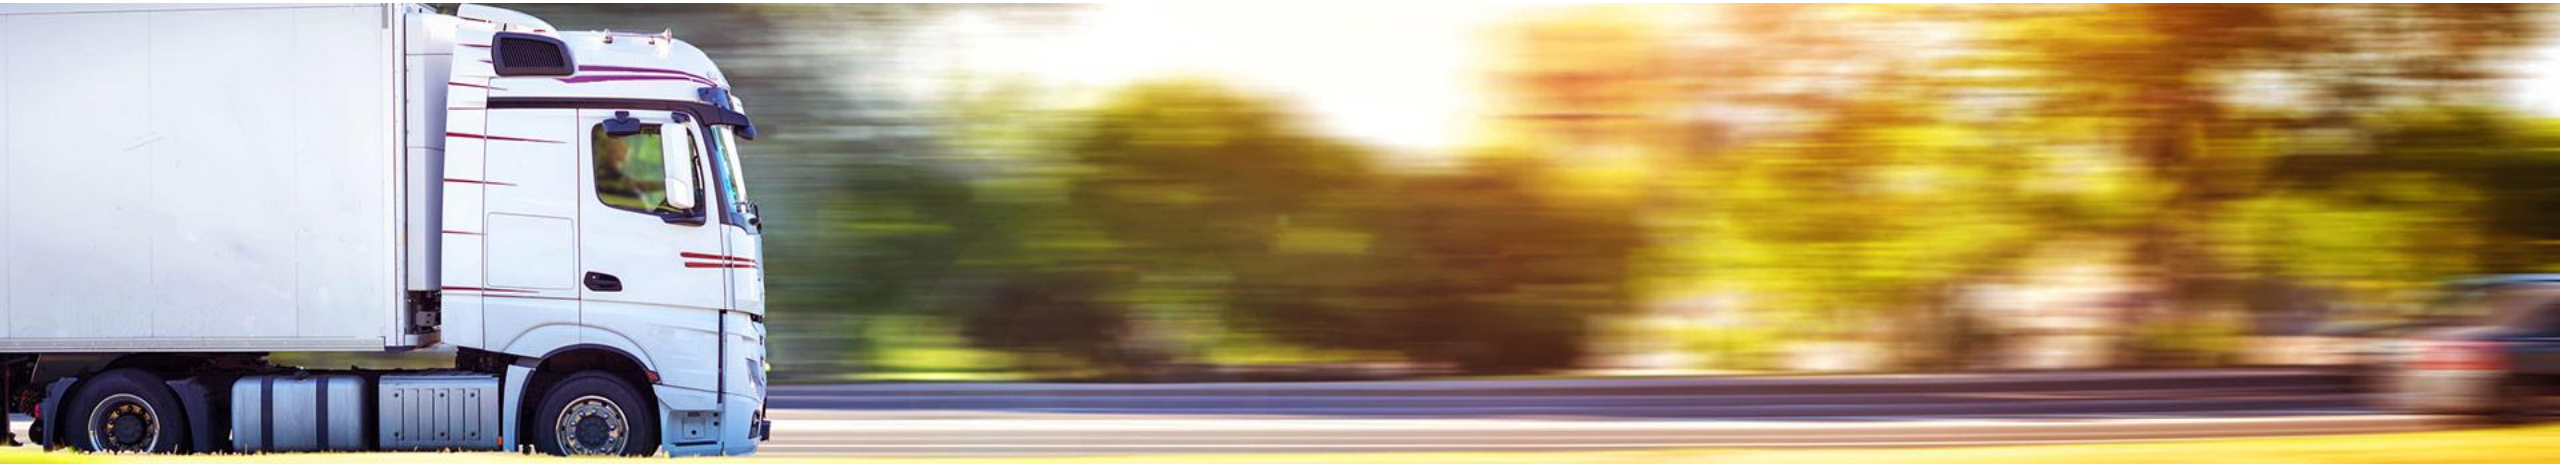

Air freight:

- ☞ Above the clouds, we reach every destination for you
- ☞ Five continents, 250 countries and more than 10,000 destinations
- ☞ **Flexible response:** Even orders at short notice do not pose a challenge to our air freight experts.
- ☞ **Sea-Air-Transports:** The combination of different means of transport offers them interesting financial and time alternatives to pure air freight or sea freight.
- ☞ **Customs clearance:** BRELOG takes care of customs clearance and the preparation of all necessary documents and records on your behalf.

Warehousing:

-  **Direct proximity:** With important locations and storage areas in Bremen, Nettetal and Dreis-Brück, we guarantee our customers short transport times to important ports such as Wilhelmshaven, Bremerhaven, Hamburg, Rotterdam and Antwerp.
-  **Good Accessibility:** All our locations are very easy to reach by all types of transportation. This ensures BRELOG a good connection to German and European distribution networks
-  **Reliable Partner:** Thanks to long-standing cooperations, we guarantee you a secure and trustworthy handling of logistics services.

Overland transportation:

-  With BRELOG, reach your destination by road, rail or inland waterways
-  Optimised transport solutions on all overland routes
-  Freight transport, partial and complete loads within Germany and Europe, as well as KEP services
-  Project, system, heavy cargo and special transport

Customs:

- ☞ We navigate through the rules jungle on your behalf
- ☞ Support in the ATLAS export and import sectors, import fiscal representation, import and export, bonded warehouses and open warehouses
- ☞ BRELOG possesses all the necessary approvals and has the status of Approved Economic Operator (AEO)

Our industrial solutions

-  Flexitank
-  Forest Products
-  Food / Beverages / Reefer
-  Project Logistics
-  Retail Logistics
-  Supply Chain Management
-  Automotive
-  Cruise Logistics

Flexitank:

- ☞ We transform a 20' container into a fluid container and transport up to 24,000 litres of your cargo
- ☞ **Suitable liquids:**
 - ☞ Transport all kinds of food and chemical products (non-hazardous products).
 - ☞ In the case of food, this includes wine, oil, concentrates, fruit juice, molasses and beer.
 - ☞ In the case of chemicals, this includes oil, lubricants, glycerol, latex, detergents and additives.

Flexitank:

- **Increased loading capacity:** Ability to load higher volumes per container compared to intermediate bulk containers (IBCs) and vats.
- **Time optimisation:** Save time when loading and unloading.
- **All-in service:** We provide end-to-end service – from planning and fitting to transportation.
- **Large selection:** Our range has the right flexitank for your product.
- **Cost reduction:** If you select one-way usage, you can reduce costs for freight and handling.

Forest products:

- With BRELOG, reach the destinations for your timber products from a variety of sources in the import and export trade on time
- A team of **experts specialised** in timber and forest products
- A **European network** of experienced partners for rail, barge and truck transportation
- Optimum selection of carriers to ensure **maximum container capacity utilisation**
- A network of **container fumigation stations** in Belgium, the Netherlands and Germany

Forest products:

- 🚚 **A network of service providers** in combined transport for high-frequency connections to fumigation stations and seaport terminals
- 🚚 **Comprehensive document creation** – e.g. fumigation certificates, pre-export certificates and plant-health certificates
- 🚚 **Transport insurance** coverage
- 🚚 **Container weighting** (VGM) as per SOLAS regulations
- 🚚 **Break-Bulk shipping** of logs and sawn timber

Food / Beverages / Reefer:

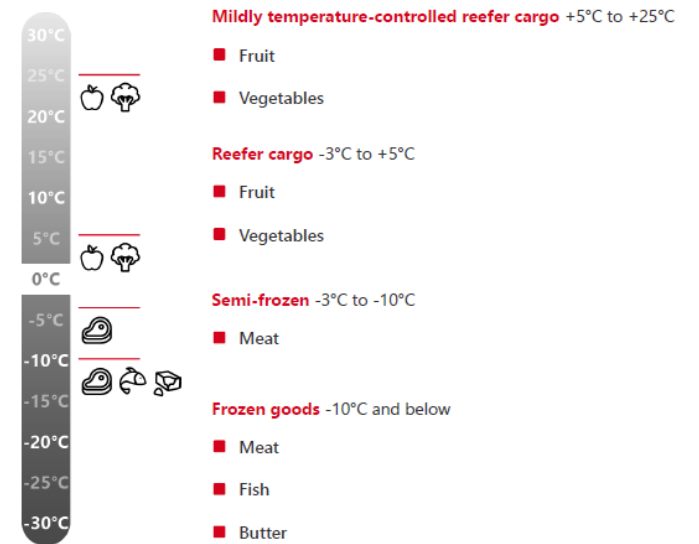

- ☞ Import and export by seafreight service in standard and reefer containers
- ☞ **Door-to-door service** including completion of customs formalities
- ☞ Handling of **bio certification**
- ☞ Optional **storage capacities**
- ☞ Use of **iso kits** when transporting beverages

Food / Beverages / Reefer:

-  The criteria for overseas perishables transportation include:
 -  Checking temperature, air humidity and air supply
 -  Avoiding damage caused by cold and frost
 -  Taking into account carbon-dioxide and ethylene content

QUALITY ASSURANCE USING PRODUCT-SPECIFIC TEMPERATURE CONTROL

Project logistics // high and heavy:

- Whether excessive width, extreme weights, charter, RoRo or relocation of complete manufacturing systems – we will support you with our know-how
- Customised solution and experienced advice
- Exact planning and precise execution

Project logistics // high and heavy:

- ☞ Trustworthy cooperation with public institutions and authorities
- ☞ Use of trucks and barge in the run-up to the seaport
- ☞ Seaworthy packaging on site and at the seaport
- ☞ Intermediate storage and container stowage

Automotive // finished and off highway vehicles:

- ☞ Solutions for your global production supply and spare parts supply in the aftermarket sector
- ☞ Sea freight Buyer's Consolidation Concepts for the connection of supplier structures
- ☞ Management of global goods flows for Tier suppliers

Automotive // finished and off highway vehicles:

- Maximum discretion for highly sensitive collector vehicles
- Air freight CBU (complete built units) for high-quality vehicles
- Sea freight option by container and RoRo for off-highway vehicles
- Complementary services such as disassembly, spray preservation, etc.

Cruise logistics:

- ☞ Logistic procurement when building and equipping cruise ships
- ☞ Smooth process for timely delivery
- ☞ Time-sensitive despatches by shipping companies, shipyards and vessel dealers are always punctual and in the right harbour

Retail logistics:

-  Integrated planning, execution, design and inspection of all goods and information flows
-  Europe-wide distribution systems ensure maximum visibility
-  Optimising of your supplier flows and replenishment times for your point-of-sale products

That is BRELOG:

- ☞ A company operating worldwide, with its headquarters in Bremen
- ☞ Experienced and trustworthy team
- ☞ Complete service from a single source
- ☞ You can reach our contacts at all times
- ☞ Your trustworthy partner in the logistics and freight forwarding industry
