

## SEA FREIGHT

### LOGISTICS ON ALL SEAS

BRELOG brings your goods safely from door to door. And across all oceans. In the logistics industry, sea freight is the most frequent and most popular mode of transport worldwide, and BRELOG is your trusted partner.

Our logistics experts ensure shipping of your goods around the globe. We offer our customers cost-optimized solutions and secure transport routes in ocean freight. LCL transports and consolidation as well as buyer consolidation ensure cost-optimised solutions. With BRELOG as a reliable logistics partner, you also effectively minimise risks from damage in sea freight. With our agencies through partners all over the world, we ensure global shipping of your goods in the import and export business. Our very good expertise in the flexitank and reefer sector enables us to offer interesting solutions for your logistical requirements.

Optimise your logistics processes in sea freight now and choose BRELOG as your partner for cost-efficient logistics services.

#### YOUR ADVANTAGES AT A GLANCE

- **Fast transit times:** By routing via Rotterdam, you benefit from short transport times for your LCL-sea freight.
- **High frequency:** Weekly LCL-departures allow us constant flexibility for the logistics of your goods.
- **Door-to-door-service:** We offer a complete portfolio of warehousing, distribution and trans-loading of ocean freight in China and the US.
- **Maximum transparency:** By using project 44 (Ocean Insights), we offer you constant control and tracking of the shipment in ocean freight.

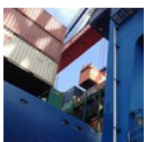

#### WE OFFER THE FOLLOWING SERVICES IN THE FIELD OF SEA FREIGHT

In order to be able to act quickly in global sea freight traffic, we have built up a reliable network of trustworthy partners throughout the world over the years. Seaworthy packing and stowage as well as the complete customs clearance of all shipped goods is – of course – standard at BRELOG on all continents.

Benefit now from our wide range of services in sea freight.

#### Service Portfolio:

- **Wide range of possibilities:** Handling of conventional shipments as well as RoRo transports.
- **High & Heavy:** Handling of project cargo and member of the GLPN network.
- **Networked worldwide:** Weekly groupage shipments (LCL/LCL) from Asia via Rotterdam to our distribution centre in Nettetal.
- **Direct connection** to the German and European land transport network as well as parcel services. Available storage capacities for the processing of Amazon transactions.
- Global **FCL transports** and conventional shipping of project cargoes.
- Use of **reefer containers** enables BRELOG temperature-controlled transports.
- **Flexitanks** for the transport of liquids in bulk products.
- **Tracking** of your sea freight through project 44 (Ocean Insights).
- **Buyers Consolidation** effectively reduces freight costs by bundling sea freight.
